

The company

Fritz Blanke GmbH & Co. KG

Industriestraße 6-12

32108 Bad Salzufen

is granted authorization according to Oeko-Tex® Standard 100 to use the Oeko-Tex® mark, based on our **test report D09-0485**

for the following articles:

Knitted fabrics made of 100% cotton as well as blends with polyester, elastane or viscose, polyamide/elastane: washed, bleached, mercerized, dyed and printed; **knitted fabrics made of 100% polyester as well as blends with polyamide, polyamide-polyethylene-mixture, of aromatic polyamide (meta-resp. para-aramide):** washed, bleached, dyed and/or finished, as well as woven fabrics made of 100% polyester resp. polyester mixtures, washed, bleached optically brightened or dyed, as printing pretreatment resp. printing finishing, partly finished with biological active products accepted by Oeko-Tex (commission dyeing and finishing).

The results of the inspection made according to Oeko-Tex® Standard 100, **product class II** have shown that the above mentioned goods meet the human-ecological requirements of the standard presently established for products with direct contact to skin.

The certified articles fulfil the requirements of the existing European legislation regarding the use of azo-dyes.

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the Oeko-Tex® mark only in conjunction with products that conform with the sample initially tested.

This authorisation is valid until 31.07.2010
